

OCR Advanced Apprenticeship in Logistics Operations Management Level 3 QCF FRAMEWORK

The Level 3 Certificate in Logistics Operations is primarily aimed at candidates who undertake varied warehousing, storage and logistics activities at a supervisory or team-leading level of responsibility within Logistics Operations.

This qualification provides candidates with the opportunity to develop further within their current roles within Logistics Operations. The qualification is about the safe and efficient receipt, movement, storage, handling and dispatch of goods in a warehousing and logistics environment.

Duration: A work based assessor will review each learner's work once a month, to enable them to achieve their framework between 15 and 18 months.

Framework: Level 3 NVQ Certificate in Logistics Operations Management
Essential Skills – Application of Number Level 2 (minimum)
Communication Level 2 (minimum)
Employment Rights and Responsibility Workbook
Technical Certificate (Level 3)

NVQ Certificate: A minimum of 21 credits is required to complete this award. There are three mandatory units worth a total of 9 credits, with a range of further optional units available to achieve the required credit value.

Technical Certificate: To complete the framework award you will also need to gain a technical certificate called the **Level 3 Certificate in Logistics Operations Management** to demonstrate your technical competence in Warehousing and Storage management.

We are currently awaiting the final details of this award but you will be required to attend workshops to gain the required skills and sit the theory assessments at ITeC.

Other frameworks offered by ITeC in Team leading, Business & Administration, Customer Service, Retail, Contact Centre, Supporting Teaching and Learning in Schools and Information Technology. Tel no 01978 367100 if interested.
